What England Says—The Mormon Question Unsettled—French Ship Canal—California Mail Contract.

Washington, June 21, 1858.

Washington, June 21, 1858.
Dispatches from England were received and laid before the Cabinet yesterday. They do not in and substantial form correspond to the expectations of the Administration, or the opinions outhorized by Lord Napler's assurances.—While they disclaim authority for any offensive acts on the part of the coulers in the Gulf, and any openand to make reportation to that extent are prepared to make reparation to that extent they insist upon the purpose of suppressing the slave trade by determined and effective means. slave trade by determined and effective means. A disposition to exercise the right of visit in the most acceptable manner is avowed, and to that extent Lord Malmebury expresses his willingness and desire to receive any suggestions from the American government. The unexpected tone of these dispatches has made much impression in the Cabinet, and it is believed our relations with England must assume a different character from what has heretofore existed.—
Some members of the Cabinet are quite willing to have a collision with England as a means of to have a collision with England as a means of relieving the internal troubles of the party, and giving the Administration support throughout the country, which, under no other circumstances could be obtained. Mr. Buchanan, who has

ces could be obtained. Mr. Buchanan, who has beld back heretofore and restrained any hostile demonstration, will now be impelled forward.

Col. Kane arrived here last night with dispatches from Gov. Cumming, and delivered them to the President. Gov. Cumming ascribes pacification insinly to Uol. Kane's effects, and Col. Kane's object in coming here is mostly to have the Government austain the Governor unqualifiedly, as the best means of insuring his authority in Utah. It is probable, therefore, that when the dispatches are published, Gov. Cumming will be endersed fully. The destination of the Mormons is not positively known, though ithe impression appears still to be that it is Boora.

There is yet a possibility that Col. Kane may There is yet a possibility that Uol. Kane may return, if policy here be directed wisely. His most effectual argument for bringing about the submission of the Mormons, was to convince Young and others of the folly of resisting the Government, and that war must end in the destruction of their religious system. The second class leaders were unlavorably disposed to him and endeavoyed to exist a rejudice, which was and endeavored to excite prejudice, which was

PREPARATIONS FOR THE FOURTH. -- A very full secting of the Military Officers in our city, was held last evening, at the Light Guard Armory, to make arrangements for celebrating the approaching anniversary. Chief Engineer SCHULTZ, and the Assistant Engineers of the Fire Department, were also present. It was unanimously resolved to celebrate the day in good style, and Son, HATHAWAY, Gon, Bust, and Lt. Col. O'N:EL. were appointed a committee to confer with the officers of the Fire Department, and arrange the details of the procession.

Major General HATHAWAY was chosen Marshal of the Day. A committee, consisting of Col. King, Col. Bann, and Capt. Bann, was appointed to raise means to defray the expense of the procession, salutes, ac. As the amount raquired will not be large, we hope that our citizons will contribute promptly to this object.

EQUESTRIAN ETIQUETTE.—Upon this subject ters in the country, it is not surprising that this the Free Democrat makes the following remarks, with which we fully concur:

The beautiful mornings and evenings with which we are being favored just now, furnish most excellent occasions for equestrian exercise, and we notice that many ladies and gentlemen are improving the opportunities for indulging in this beautiful accomplishment. Many of our ladies are excellent horse-women, and many more would be if the colly located by all Booksellers and Canadas. It is sent by mail at \$2 year, or two copies for \$3.

We notice that many gentlemen in this city, when riding in company with a lady, invariably place themselves to the right of the lady. Now fort, convenience, and use, this is wrong. The gentlemon should ride to the left. For the fol-

wing reasons:

1st, It is not the most natural place 2d. If any accident should occur to her or saddle, he would be in a position to shield the lady from the gaze of the spectators, and if her horse should become unmanageable or rest-less, he will have the right arm free (the reins being always to the left) to render assistance, neither of which things can be do, if riding on

MILWAUKEE

## THURSDAY MORNING, JUNE 24.

The News of yesterday, addresses a lecture to the people and press of Milwaukee, for the "folly" they have exhibited on the subject of. the removal of the Capitol. The Sentimel comes in as usual, for un extra share of consure and misrepresentation. The News taxes us with "searling" and "foaming" at Midison; with "constantly decrying Madison, ridiculing hed society, and attempting to cut down the consideration of her citizene," and finally intimates that we rest the removal of the Capitol upon our ability to show "that Madison people are less attentive to strangers, or visitors, then is Milwankee; that somebody at sometime has been cross with somebody; or that the army of Wisconsin editors are not always gratuitously furnished with food, drink and lodgings, by the dditors at the capital."

It le quite unnecessary for us to say that notilog of that sort ever appeared in the editorial dolamost of the Sentruct, and needless, of course, to add that it is a wholesole inbrication on the part of the News, We have never spoken otherwise than kindly and admiringly of Madison, her to ciety and her citizens. We have never complained, nor had reason to complain of want of attentions there; but, on the contrary, have al ways been hospitably entermined and have taken frequent occasions so to say. We have advocated and still do advocate the removal of the Capital not that we love Madison less, or Milwauk more; but because we believe that the public in terests demand the change. But we have buse our cause not on such idle talk, or silly grounds as the News falsely alleges, but upon broad cos sidurations of public policy.

What motive the News can have for taxing

the people of Milwaukee with "folly" in this mat tor, and deliberately misrepresenting; the opinlone and course of the Lentinel on the subject we neither know, nor care. Very possibly it is done with a view to sir its own overweening conceit and vaunt its superior discretion and lofty magnationity. We certainly have no diinction to the News making this pracook-like display of itself as often as it pleases. But when it next parades itself thus admiringly before an unappreciative public, and seeks to exalt itself by decrying and disparaging its neighbours, we invite it, in its references to the Sentinel, to till the bill was squared. They attempted to speak the truth for once, and not, as usual, bonr

#### A Renson for Squandering.

The Richmond South, having stated that the Federal expenditures during the current year will amount to nearly One Hundred Millions, and that fifty millions would have been quite auflicient for an aconomical Administration, the Washington Union, administration organ, replies that Mr. Buchanan used the money "on account of its beneficial influence upon Congress, in cheeking extravagant appropriations, and the timbility to which every such body, with abundant means at command, is subjected, to persent the legitimate and constitutional ends of legislation in voting money from the treasury."

In other words, the Administration has square deted the surplus of eighteen mullions which it had on hand at the beginning of the year; has used up the current revenues; and has run into debt to the tune of thirty millions; all from the laudable desire to prevent Congress appropriate ing money for the Improvement of our Rivers and Harbors and other unconstitutional objects What a parental government, and how deeply w of the West are indebted to it for this thoughtful supervision of the Federal expenditures.

### Minnesots against Lecompton.

The Minnesota House of Representatives, or Saturday last, adopted resolutions strongly con demnatory of the Lecompton swindle, and culo gizing the course pursued by Senstors Doggass Surrebs and others, on that question. We give two of the resolutions:

Resolved, That Government, to be just and legit imate, under our Republican system, must rest up on the free consent of the people governed, and that is our opinion the stempt of the Administrativation to impose the Lecompton Oomstitution

What has been Done. The principal sins of commission and omission during the session of Congress just closed, are

thus summed up : The Lucomption Constitution and the "Eng-Beb" Bill.

The Treasury Note Law. The \$15,000,000 Loan Bill.

The Admission of Minnesota.

The bill authorizing seven new Steam Sloops The Civil Appropriation Bill, including the Ospitol Extousion; the Washington Aqueduct,

The Army Appropriation Bill.

The Indian Appropriation Bill. The Post Office Appropriation Bill.

The Bill for the Collection of the Revenue. The Ocean Mail Steamer Bill.

The Military Road Bill (from Astoria to Sa lom, Oregon). The following measures brought forward du-

ring the session, were rejected or postponed mainly by the votes of administration Democrate, who have a majority in both Houses; The Pacific Railroad.

The admission of Kausas with a Constitution framed by her people,

The Admission of Ore gon. The Abellion of the Franking Privilege.

The Modification of the Tariff.

Southern Particulor.—The New Orleans Crescent utters the following prediction : "WIL-LIAM M. SEWARD will be the next President of the United States, if he lives and the Union lasts. Those who preach that his party is declining at the North, preach false knowingly, or preach false ignorantly, or their prejudices are so strong that they would profer the suslavement of their rection to the ruthless rule of Abalition faunticiem, suoner than tolerate the idea of a disrup-

At that time Mr. Buchanan will have been in family, and nothing that could be desired, for the enjoyment of quiet life, appeared to be iscking. Mr. SHARP's residence was occupied long before any other place in the neighborhood, long before any other place in the neighborhood, bence its high state of cultivation, when most of fice; and the \$48,000,000 which have since been hence its high state of cultivation, when most of the country around it is yet in its natural state, or just beginning to be thickly settled. When visiting the Lake, last summer, the owner of "Elkhart Place" extended to us many courter "may as-you-go". Our citizens are beginning to think that Manitowou is in reality a fast town and that its press is of the fast order, though it may not work the power principle.

The Milwaukee Sentinel has the reputation of

being one of the best newspapers in the West, naving the news se soon as, and often about of nuy of its morning cotemporaries. On Saturday mouning we printed an important item of foreign new simultaneously with this standard sheet, and severed it up to our readers at the same time that the Milwaukeeans were reading it in the Sentinel.

We wish your enterprise the success it justly merits, neighbor, and we hope that the people of Manitowee and vicinity may appreciate the value of a good local daily paper, such as the Bribuse is, though only in its intancy.

RIOT AT STILLWATER, MINS .- The Stillwater Messenger gives account of a riot among certain lumbermen there, who not having been paid by their employers, according to agreement, threatened to cut the rafts loose and sack the town, carry out the threat—the ring leaders were ar rested by the police-a rescue was attemptedthe military being in readiness, charged on the rioters-tue result was, the prisoners soon found themselves in the positentiary, which is lecated at that place.

A MODEST WRITER .- A correspondent of the Grand Rapids Enquirer writing from this city, over the signature of "G," thus honors the stosmer Forest Queen, with the following very flattering notice :

"On Friday afternoon, the 15th instant, the Forest Queen proceeded down Grand River, with myself and a number of other passengers on board, including Hon. J. C. Blanchard, Hon. M. L. Hopkins, and their estimable ladies."

### The M. & M. Railroad.

The following is the reply of Superintoudent Junyes to certain strictures which appeared in

the Free Democrat, relating to the old time table on the Milwaukee and Mississlepi Raifroad:

Surr'd Ovice, Mil. & Miss. R. R. Co. Milwaukee, June 19, 1858.

Morron Fran Dan. — Danr Sir. — Your article in last evening's paper in reference to this road, is calculated to give a wrong impression as to the polloy of its management. You say that passengers have to lie over at Janesville on the night train, and that this is done to accommodate Chicago, and to the prejudice of Milwaukee. date Chicago, and to the prejudice of Milwaukee. Now, why does that train his over? Simply to allow business men living slong the line to come to Milwaukee at a proper time to do their business and return home in the evening. Suppose that the train comes direct to Milwaukee, it would pass all the important stations before dawn, and present at Milwankee with perhaps a haif dozen passengers lour or five hours before any husiness can be done. The school building is a splendid three story brick one, admirably arranged, conveniently and comfortably furnished, costing with the lot upon which it stands, some \$45,000. Entering the first or ground floor, we found one hundred seats, and each seat eccupied by bright eyed children from six to ten or twelve years. Ferfoct order was here. The Principal was engaged in giving the little fellows a lecture, and all seemed interested in what he was saying. This over, the singing teacher entered and the whole school sung seyoral pieces in good style, keeping no, above all we had seen berefore. The

the bast interest of the largest number was accommodated.

In regard to inducing passengers going to Chicago via Milwaukeo, it is only nucessary to say that the M. & O. R. R. refuse to pro vala on passengers, and offer no inducements to get them. Of course passengers will not go over a longer distance and pay one dollar extra fare.—
The result would be it this road did not make a diese connection at Januaville, passengers would go via Dunielth.

Thus much in regard to the past arrangement of train. A new Time Table is in the hands of the printers to take effect on Tuesday, which will avoid the detention at Januaville and bring in the way passengers by a mixed train—freight and passenger from Januaville at S.50 A. Mr. Daggett in the chair.
The committee arising reported progress.
Mr. Tobiu in the chair. The committee of the whole by their chair

nan, Mr. Daggett, recommended the adoption of he following report, to wit: The Committee, appointed by resolution of the Board of Supervisors of Milwaukee county, "To examine into the Accounts and managements of all the County Offices, the Poor Farm, and all other departments of County Government an Expenditures, and report what changes may be made in view of a more oconomical management of the Alfairs of the County," beg leave now to

That they have collectively and individually directed their attention to the several branches of inquiry embraced in the said resolution, not so much with a view so unveiling the corrup-tion, waste and mismanagement in the several departments of the county system heretofore, as to suggest effective reformations, and to point out the means by which traure abuses might be prevented, or the liability thereto, in as great a degree as possible, be mitigated. Novertheless, the investigations made have but too painfully presented to the eyes of your Committee, a history of rash and ill-judged expenditures, heedless waste, extravagance, corruption in contracts, frauds in purchases, peculation, breaches of trust, and criminal indifference to the public interests, on the part of these to whom these interests have been confided, fully up to the tener of the degenerated spirit of the times, and wholly repugnant to the moral sense of your Committee, and, undoubtedly, to the people at

While disclaiming any intention of personality, it would seem to your Committee that the tendency to create numerous and unnecessary officers and placemen at exorbitant and disprosing the control of th

portionate salarios, has only been-equalled by the scending contempt of all qualifications in the appointees for the places to which they were assigned; unless a happy facility for appropriating extrus, and creating emoluments where none are allowed, are to be deemed such.

The most important branch of inquiry referred to your Committee, relates to the support and management of the county poor; and the most striking feature connected with this subject is, that for the management of a single farm of one hundred and sixty acres—a farm usually considered too small for the ambitton of the ordinary country agriculturalist—and for the supprintendence of the Aims. House, and the distribution of such casual charities as may be perintendence of the Alms House, and the distribution of such casual charities as may be

tribution of such casual charities as may be necessary for temporary relief, a sum of noarly seven thousand folliars is expended in salaries alone. This includes the salaries of three physicians, who are paid two thousand and four hundred dollars for services which your Committee can not conceive can be worth to exceed one half that sum possibly not a third of it. All Your Committee disclaim most semphatically any disposition on their part to retrograde in the laudable object of relieving the destitute and unfortunate at the public expense; it is the diversion of the funds of the public from that object; to support a throng of idless under the name of officers, almost as grant, as the whole number of paupors maintained at the expense of the county, that they condomn, and which calls county that they condomn, and which calls for their own and the public reprobation. But to present, without further comment, the reforms proposed by your Committee, they recommend to your Honorable Board:

- Firstly, That inasmuch as the statute provide Firstly, That inasmuch as the statute provides for three Superintendents of Poor, so that a less number can not be adopted, there be appointed one principal Superintendent of Poor, at a salary of six hundred dollars per annum, not exceeding, who shall keep the office of Poor Superintendents in the city of Milwaukee, where the books, papers and records of said Board shall be kept; and also two assistant Superintendents of the Poor, at a salary not exceeding four hundred dollars each, one of whom shall act as inspector the Foor, at a salary not exceeding four hundred deliars each, one of whom shall act as inspector and manager of the County Farm, under the direction of the Beard, and whore he shall reside; and the other to act as Overseer of the Alms House, where he shall also reside. These three Superintendents, at a united salary not exceeding fourteen hundred deliars, to perform all the services now performed by the present Board, the Inspector of the Farm, and the Overseer of the Alms House, who now receive a united salary of three thousand and eight hundred deliars; and that during such part of the season, or from other cause, the claims of public charity should require it, the Superintendents should have the power to employ the services of not more than two additional helps, at reasonable rates, accompaired with wages of respectable labor.

Secondly, They recommend the employment of two physicians to supply all calls from the County Farm; and from the Alms House, and to lie responsible for their sanitary condition, at a state of the control of the county farm; and from the Alms House, and to lie responsible for their sanitary condition, at a e responsible for their sanitary condition at

he responsible for their sanitary condition, at a salary of five hundred deliars, not exceeding, for each of such physicians; and they red confident that at all times, except in great and unforcesed energencies, such services as they can afford to rouder for that compensation, will be amply sufficient for the best interests of the persons for whom they are intended.

Your Committee do not desire now to suggest

Your Committee do not desire now to suggest any changes in the lesser details of the respective poor establishments; such changes are imperatively needed, and they can not laid to follow a change in the heads of the several departments, but they stronubully recommend the adoption of measures for educating the pauper children at different times in the charge of the County, varying in number from fifteen to forty, by the establishment of a school room in the County varying in interest from Interest to forty, by the establishment of 'as school room in the County buildings, upon the County Farm' or otherwise. It is not unlikely a competent teacher may be found among those living at the public expense whose services could be had without much additional outlay; but oven if such is not the case, tills better by providing some means of educa-

ditional outlay; but even if such is not the case, it is better, by providing some means of education, to ultimately rescue these destitute children from growing up in ignorance and debasement, and our poor house from being thus made a nursery for futtire paupers and folons.

They also recommend that employment be found for all persons living at the public charge, and that means be taken to make their work compulsory, according to their ability and aptitude, and under regulations founded on the report of the attending physicians. port of the attending physicians.

The Committee are impressed that the management of the Poor Farm hitherto, has not been

agement of the Poor Farm hitherto, has not been so well calculated to develop its resources and promote its productiveness as it might have been, and the general appearance of the place does not indicate that tidness and thrift, which is exhibited in the ordinary farming establishments of the neighborhood, and which are peculiarly desirable, and always looked for, on all estates developed to the public and charitable uses. Sufficient attention is not paid to the production of vegetables, the raising and protection of fruit trees. and generally rendering the property nest and agreeable in appearance, as well as adding to its means for the support and comfort of (its) the occurants.

occupants.

Thirdly, To prevent the recurrence of depredations, which have not been unfrequent upon the personal property of the County, necessary to be kept on hand at the farm, the simshouse, to be kept on hand at the farm, the aimsbouse, and in and about the office of the superintendents, provisions should be made for the filing of written lists and inventories in the Superintendont's Office, as often as once in three or six months, by all persons having charge thereof, of all personal property, tools, goods, grain, stoves, other set up for use or not, stove pipes, farm produce, implements and stook, in fact of every species of moveable property; with a (pertinent) specificalizer description thereof. Also, for quarterly reports by the Poor Superintendents, to be filed in the office of the Clerk of the Board of

Supervisors for public inspection, of all and singular their official doings, purchases, sales, contracts with terms and prices, charities distributed and to whom, purchase, expanses and in fact, intelligible memoranda of all their official transactions, together with a summary of the removations, together with a summary of the removation of all their official transactions, together with a summary of the removation of the remo

Fourthly, And with a view to prevent jonoing upon provisions and supplies, illegal com-nissions upon purchasers, and corrupt speculations upon improvements and repairs, provisions should be made for all County expenditures, as well as those connected with the poor establishments, as all the several offices and departments ments, as all the several offices and departments of the County System being made upon some more conservative plan. All expenditures should be made upon prior special contract, and all contracts in behalf of the County-should be the subject of wholesome competition among contractors, who should have public notice of a time limited of presenting bids for articles, supplies, improvements or repairs, to be pertinently described with minuteness and detail, and all contracts made by any news or officer, to have contracts made by any person or officer, to have the endorsed approval of a majority of the par-ticular committee of the County Board of Supervisors to whom such subject or department is properly referable, as a necessary incident or condition of its validity. And all purchases; contracts or other liabilities should be made or incurred with the understanding, that the County will make its payments in the way pointed out by law, to wit; by orders upon its Treasury and without any reference to their supposed de-

and without any reference to their supposed depreciation in value.

Eithly, A general spirit of economy and retrenchment should characterise all the general County expenses, and limits should be set to the supplies furnished the County efficars. Where the law of the State provides specific fees, for the Clerks, Sheriff, Register, Treasurer and other officers for certain documents or papers to be filled out, issued or executed by them respectively, all blanks in use for such documents of papers should be furnished by such officers themselves, and not at the expense of the County. The saland not at the expense of the County. The sal-ary of the Clerk of the Board of Supervisors, an officer who has a liberal income, in addition to fees for services connected with his office, should officer who has a liberal, income, fine addition to feed for services connected with this office, should be reduced to a sum not exceeding fifteen handred, dollars, which should include the hire of deputy, if necessary; and which sum your Committees deem an ample and full remuneration for all the services rendered and wented.

if necessary; and which sum your Committees does not ample and full remuneration for all the services rendered and wanted.

In consideration of the several and many supplies furnished at the expense of the county to the jail, your Committee deem the price charged for the board of prisoners, at present two 75-100 dollars per veck, attogether too high. This price, established when provisions and attendants was seen that they now are, should yield to the attenation of the times. Your Committee are also informed that it is customary to enter a charge for a day's board for every prisoner upon whom the boilts of the very remaining the dispute that our rich and many other things, resting to some extent in rumors, may of the light have been turned, whether he or she in fact cats a neal or not. This and many other things, resting to some extent in rumors, may of the light have been turned, whether he or she in fact cats a neal or not. This and meny other things, resting to some extent in rumors, may of the light have been turned, whether he or she in fact cats a neal or not. This and many other things, resting to some extent in rumors, may of the light have a neal or not. This and many other thin ientes, now remaining on the hands of the coun-sy, amounting to nearly eight thousand dollars. Any disposition of these certificates whereby their cash amount might be realized, would be of immouse advantage to the county finances; yet no plan occurs to your Committee sufficiently free from objection to secure their recommendation of its adoption. These certificates lave all been in market, and some of them many years, without sale; and while a few at the scettion of the purchaser have from time to time

been taken, these now remaining from some sup-posed defect in the precedings incident to their issuance, or imperfection of description of the promises on which they are a lien, remain with-It has been suggested to dispose of them at public sale. We do not concur in this sugges-tion. It is not likely that the result of such a sule would be satisfactory; and the question of the ultimate liability of the county forefund the purchase money on such certificates, as proved to be void for defects attributable to its officers. s not free from doubt. The enhancing impo tance of real estate, the exigencies of trausac-tions therein, will gradually require the redemp-tion of most if not all these outstanding certificates in the course of a few years, to remove the shadows now cast upon titles; and thus the coun-ty will eventually realize the most by retaining em, and avoid all risks and sacrifices growin

them, and avoid all risks and sacrifices growing out of their disposal.

Your Committee further recommend the reduction of the salary of the District Attorney to a sum not exceeding afteen bundred dollars per annum; and as by the twenty-sixth section of the fourth article of the State Constitution, the compensation of public officers cannot be increased or diminished during their term of officers. od or diminished during their term of office, your Committee recommend that the salaries of the several officers embraced within the meaning of said section be reduced and fixed without uncoessary delay, to take effect in future, and that for the remaining officers, not embraced within the meaning of said section, the changes and reduction take effect immediately. All of which is respectfully submitted by your Committee.
